Whitcomb : Baxter State Park and Katahdin (Images of America)** log home design detailed log home plans and kits from katahdin cedar log homes log home dealers throughout the us each certified log home builders youll feel facts about maine forests state tree and native tree species information includes rare or endangered tree species native tree family and genera invasivenoxious Baxter State Park and Katahdin (Images of America):

0 of 0 review helpful Wow By Loghead Wow Although the book is all about images the images present are fantastic if you really want to enjoy the history of the park and those involved with it's presentation If you have spent much time in the area you will recognize many of the place names and individuals names Great images all through The character of Baxter State Park and the great mountain at its heart can be powerfully conveyed through two words forever wild The mountain was known as Ktaadn or "the greatest mountain" to native peoples who first frequented Maine's interior northern forest They were followed by colonial adventurers who explored its cirques and massive granite walls by those who studied its geology and flora and fauna and later by loggers who came to extract timber. About the Author John W Neff a Katahdin historian has served as president of both the Maine Appalachian Trail Club and Friends of Baxter State Park Howard R Whitcomb a retired professor is a published authority on Governor Baxter and the park's creation.
