0 of 0 review helpful Great trip guide if you can find it By C Fox Theses are the best trip guides around It s just enough info no huge books to shlep around Very easy to use with great maps We ve used them in many cities in us

and Europe and find it's the only guidebook we need. If only they hadn't stopped printing them. This one is from 1997 so I'm sure the info isn't all up to date anymore. Ramble with the natives at a 30 acre garden deep in Georgetown, visit the little known reception rooms where the Secretary of State entertains or head up to the top of a clocktower for a view that rivals the Washington Monument. It's all in the Washington D.C. TripBuilder. Informative sight descriptions unearth little known anecdotes, unique facts and practical advice like when to go, how to get there and what it will cost. Color coding tells you whether a sight is a must-see, a great trip planner, US News World Report, Excellent, whether you're spending a week or weekend in a new city, The Chicago Tribune, Extremely Useful, The New York Times, Information you won't find.
