1 of 1 review helpful Before the railroads there were By Robert Scott This subject interested me because the

Blackstone Canal Bikeway is probably the best I have ever been on It follows the old towpath or adjacent abandoned railroad right of way ironically since said Railroad killed the canal and is now gone itself High quality book in terms of the paper and photos A good read as well In 1790 American craftsmen built the first machines that successfully used waterpower to spin cotton America 's first factory Slater Mill was constructed on the banks of the Blackstone River The revolution in harnessing the power of water spread quickly through the valley and in other areas of New England leading to the erection of new structures changes to the landscape and radically altered ways in which people lived and worked Landscape of Industry is "The Blackstone River is sleepy as it twists and turns from Worcester to Pawtucket RI Yet 200 years ago the Blackstone was a whirring engine of the American Industrial Revolution Slater Mill in Pawtucket was the nation 's first successful w
