10 of 10 review helpful Utterly gorgeous By Ema Nnep I purchased this as a gift for my mother who loves the autumn hues of New England and when I saw the cover on this book I decided to pick it up for her In the past I have found that collections of photo essays that have been made into a coffee table collectible will sometimes use the very best image from the work to create the cover art I mean it's not a bad Each writer takes a month in this stunning new book capturing the changing beauty of Vermont's incomparable countryside Every lover of Vermont will relish this portfolio of over 100 full color photographs accompanied by poetry and prose that add insight and meaning to the visual experience Authors include Chris Bohjalian David Budbill Galway Kinnell Reeve Lindbergh Howard Frank Mosher Noel Perrin Katherine Patterson Castle Freeman Julia Alvarez and others
